

Student Confirmed/Diagnosed

Positive test/Diagnosed COVID-19

STAY HOME (*Quarantine/** ISOLATE)

Follow the guidance of your healthcare provider

Complete the Self Report Form noted to the bottom right of the flowchart.

You may return to "Face to Face" environment when

ALL 3 CRITERIA ARE MET:

- 24 hours have passed without fever or use of fever-reducing meds
- Improvement in any of the above listed symptoms
- At least 10 days have passed since symptoms first appeared or from first positive test date

OR

Submit a medical professional's note clearing for return to work based on an alternative diagnosis.

If Student is Experiencing Symptoms

Feeling feverish or temperature greater than 100.0 degrees, loss of taste or smell, cough, difficulty breathing, shortness of breath, fatigue, headache, chills, sore throat, congestion or runny nose, shaking or exaggerated shivering, significant muscle pain or ache, diarrhea, nausea or vomiting

Schedule an appointment with school nurse to take a Covid-19 test (if tests are available). If student tests negative, he/she may take another test 24 hours later. If second test is negative and student is 24 hour fever free, he/she may return to school.

OR

See doctor and receive alternate diagnosis and be fever free for 24 hours. Student then may return to school.

OR

Follow the **STAY HOME** chart above and meet all 3 criteria.

Close Contact/Exposure

This document refers to "close contact" with an individual who is lab-confirmed to have COVID-19. In general, close contact is defined as:

- a. Being directly exposed to infectious secretions (e.g., being coughed on while not wearing a mask or face shield; or
- b. Being within 6 feet for a cumulative duration of 15 minutes, while not wearing a mask or face shield.

If either occurred at any time in the last 14 days at the same time the infected individual was infectious.

Follow the guidance of your healthcare provider

Complete the Self Report Form noted to the bottom right of the flowchart.

STAY HOME *QUARANTINE

Until 10 days after last exposure (or lab confirmed positive person began having symptoms) and monitor your symptoms IF you have not been tested.

OR

Test after 7 days of exposure and may return on day 8 with a negative test.

***KISD will only test SYMPTOMATIC students, but you may seek testing at other testing locations.**

Check temp twice a day.

Contact your healthcare provider and follow their guidance for testing, Dr. visit, medications etc.

If you develop symptoms during quarantine move to the red area

<https://www.cdc.gov/coronavirus/2019-ncov/community/community-mitigation.html>

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/disposition-in-home-patients.html>

Contact of Contact

Being within 6 feet for 15 minutes or longer, of someone that has been exposed to an individual positive for COVID-19

You do **NOT** need to report this at this time as contact of a contact is a low risk situation.

You may continue to physically be at work or attend school.

Self - monitor your symptoms for 14 days.

NOTE: if the contact individual becomes ill or positive lab tested AND contact has been less than 3 days from individual FOLLOW EXPOSURE GUIDELINES

ALWAYS self report if you are in a **RED** [Confirmed/Suspected Positive] or **ORANGE** [Close Contact/Direct Exposure] zone by completing the [Self Form](#)
